## WELCOMES NATIONS

President Roosevelt at Jamestown Celebration.

#### WORLD'S CHILDREN HAND IN HAND

Declares True Patriots Should Work For Mankind's Higher Civilisation - Grave Evils Must Be Checked.

NORFOLK, Va., April 27.-From the firing of a sunrise salute of 300 guns by the United States army, through the picturesque review of the international fleet of war vessels anchored in Hampton Roads, through the ceremonies of dedication at which the president spoke and down to a late hour last night, when Mr. Roosevelt and his party repaired aboard the naval yacht Sylph to spend the night in the lower bay, the opening day of the Jamestown Tercentennial exposition was crowded with many notable in-

cidents and complete success. Not the least impressive of the day's events was the quick action of the president in assuming command of the situation in front of the crowded grand stand from which he spoke when a panic seized the surging throng of spectators. Pressed against the guard the rear of the gathering who were forcing their way forward, the safety of life and limb of those who had the more favored positions were endangered. President Roosevelt had just been introduced by Harry St. George Tucker, the head of the Jamestown Exposition company, when the disorder and unrest in the crowd reached its height and the civil guards in front of the grand stand seemed about to be swept from their posts. With the agility of a schoolboy the president jumped upon the table which had been placed in the speakers' balcony and, waving his arms, cried out to the men of Virginia to live up to their traditions of gallantry and cease the pushing and crowding which was threatening the lives of the women and children in the assemblage, a throng which all but blocked the big grass covered plaza known as Lee's parade. The trouble subsided as if by magic.

The president's address, after a cordial greeting of welcome to representatives of foreign nations, was chiefly devoted to a rapid review of the founding and growth of this nation.

He said in part: "To all of you here gathered I express my thanks for your coming, and I extend to you my earnest wishes for the welfare of your several nations. The world has moved so far that it is no longer necessary to believe that one nation can rise only by thrusting another down. All farsighted statesmen, all true patriots, now earnestly wish that the leading nations of mankind, as in their several ways they civilization, a higher humanity, may advance hand in hand, united only in a generous rivalry to see which can best do its allotted work in the world.

"I believe that there is a rising tide in human thought which tends for for the defense of Moyer, Haywood righteous international peace-a tide which it behooves us to guide through rational channels to sane conclusions, and all of us here present can well afford to take to heart St. Paul's counsel, 'If it be possible, as much as lieth in you, live peaceably with all men.'

'We have met today to celebrate the opening of the exposition which itself commemorates the first permanent settlement of men of our stock in Virginin, the first beginning of what has since become this mighty republic. Three hundred years ugo a handful of English adventurers who had crossed the ocean in what we should now call cocklebonts, as clumsy as they were frail, landed in the great wooded wilderness, the Indian haunted waste, which then stretched down to the water's edge along the entire Atlantic

"In industrial matters our enormous prosperity has brought with it certain grave evils. It is our duty to try to cut out these evils without at the same time destroying our well being itself.

"At the moment the greatest problem before us is how to exercise such control over the business use of vast wealth, individual, but especially corporate, as will insure its not being used against the interest of the public, while yet permitting such ample legitimate profits as will encourage individual in-

"The wrongdoer, the man who swindles and cheats, whether on a big scale or a little one, shall receive at our ands mercy as scant as if he committed crimes of violence or brutality.

"We are unalterably determined to prevent wrongdoing in the future. We have no intention of trying to wreak such an indiscriminate vengeance for wrongs done in the past as would confound the innocent with the guilty.

"This great republic of ours shall never become the government of a olutocracy, and it shall never become the government of a mob. God willing, It shall remain what our fathers who founded it meant it to be.

"A government in which each man stands on his worth as a man, where each is given the largest personal libas in us lies, we strive continually to oportunity that in the strife of life he may have a fair chance to show the

David Willcox, Former Railroad Pro ident and Banker, Shoots Himself. NEW YORK, April 27.—Returning from Italy, where he went in search of health early in March following a nervous breakdown, David Willcox, formerly president of the Delaware and Hudson company and a leading New York financier, committed suicide by shooting on Wednesday night on the

North German Lloyd steamship Barbarossa. Mr. Willcox was a passenger on the North German Lloyd line steamer Barbarossa, which arrived at quarantine last night from Genoa and Naples. The

body was brought to port. Mr. Willcox cabled his resignation from the presidency of the Delaware and Hudson road, which at his earnest solicitation was accepted several days

ago by the directors. His successor is Leonor F. Loree. Mr. Willcox, it is said, was not feeling at all well when he boarded the Barbarossa at Naples. The steamer is not equipped with wireless apparatus, and the death was not known here until quarantine was reached.

Secretary of War's Mother Does No.

Want Her Son President. LOS ANGELES, Cal., April 27,-"I do not want my son to be presiden He is not my candidate," declared Mrs. Alphonso Taft, mother of Secre tary Taft. "A place on the supreme bench, where my boy would administer justice, is my ambition for him. His is a judicial mind, you know, and he loves the law. Added to these qualitles, he has good health and unfailing good nature.

"To be president would entail a very heavy responsibility, and the position is a very trying one. He has not sought to be a candidate for it. It has been thrust upon him. I know that he himself does not want it, that his views are the same as mine," continued Mrs.

"Who is your candidate for president?" Mrs. Taft was asked.

"Elihu Root, secretary of state," she replied. "I know him personally and consider him a fine man. I hope he Mr. Rockefeller has deeded all the will be the next president. York Track 5aw Tame Race For \$10,000 Prise - Favorite Is Beaten. NEW YORK, April 27.-Dr. Gardner,

Timothy D. Sullivan's big bay Bannockburn-Uarda four-year-old colt, won the \$10,000 Excelsior handicap at the Jamaica opening here in the easiest sort of style. Glorifler, winner of the Carter handi-

cap, was second and Cairngorm third.

The distance was a mile and a six-

teenth and the time 1:48 1-5. Dr. Gardner opened at 4 and closed at 7 to 1 in the betting. Glorifier had little sup-port at 12 to 1, while Cairngorm receded from 6 to 1 to 10 to 1 at post time. Kentucky's representative, King's Daughter, at 7 to 2, probably was the most fancied horse in the race, but, like W. H. Carey, was crowded out at

the first turn and never bad a chance thereafter. Perfect weather brought out a crowd of 20,000 to witness the Excelsior handleap and the five other races on the card. But two favorites won, Rob-

in Hood and Handzarra. The fourteen starters in the Excelsion were sent off to a fairly good start, Dr. Gardner going to the front at once. On the first turn there was much crowding, and several of those running well up in front were bumped and buffetted about, losing their favorable positions and all chances of success. Perfectly ridden by Jockey Martin, Dr. Gardner escaped the mixup and had clear sailing, Glorifier and Cairngorm also being among the fortunate ones. Dr. Gardner maintained his great

swinging stride to the finish with no need of urging from his jockey, while Glorifier, Cairngorm and Philander trailed along in the order named. The others finished as they pleased, Carey being sixth and King's Daughter elev-

The third race, a five and a half furlong haudicap affair, proved the best contest of the day. Handzarra, Vooraees and Pretension finished heads apart, the winner being splendidly ridden by J. Martin.

THINGS WE DO NOT SEE.

Proof That the Majority of People Are Unobservant.

A man who had recently been in Europe was entertaining his frie with stories about Paris, and in the course of his talk mentioned several places which were unknown to his listeners, although they had all frequently visited the French capital. People go through the world with their eyes shut," was the story teller's comment. A quiet little man in the party then said that even the most observing people did not always see, and, addressing the traveler, said: "You have read the same pa per daily for 30 years. Do you know how many columns it has on a name?" "No." "You look at your watch many times every day. Can you tell me, is the six on its face a Roman or an Arabic figure?" "Why, Roman, of course." And he looked, and found that there was no "six" on his watch. dial. "All of which demonstrates." said the little man, "that the most observing do not always see."

## Sixteen Reasons Why "AJAX" Investors Will Make a Fortune

Below we give sixteen self-evident reasons why investors in the AJAX GOLD MINING AND MILLING CO. are bound to make a fortune, and we ask in your own interest to kindly consider each and every reason, and then ask yourself if an investment in the "Ajax" is not indeed the surest, safest, soundest and best investment of its kind that has ever been offered to you before.

Capital Stock, \$1,500,000. Shares 35c ea, (Par Value \$1.00) Stock in the Treasury, \$500,000. THESE ARE THE SIXTEEN REASONS FULLY PAID AND NON ASSESSABLE.

1. BECAUSE the AJAX GOLD MINING AND MILLING COMPANY gold mines in which the speculative stage has long since been passed, and owns outright, free and clear

#### SIXTEEN PRODUCING GOLD MINES every one of which contains gold ore in enormous bodies and are of great

2. BECAUSE every one of these sixteen gold mines is DEVELOPED and is producing ore right at the present time, being operated twenty-four hours each and every day by three shifts of miners, who work "night and

8. BECAUSE the AJAX gold mines are located in the midst of one of ing in his office window, fatally shot the richest gold bearing districts in the world, the Eagle and Chucawalla Mountains, Riverside county, near Los Angeles, California, and are surrounded on all sides by big producing gold mines which have made great fortunes for their owners.

4. BECAUSE the mines are managed and will continue to be managed the well known Lightfoot family, of California, the original owners, who are known to all Californians for their integrity, ability and expert knowledge and success in mining.

5. BECAUSE in buying these shares the element of risk is entirely eliminated, inasmuch as the owners have been at work developing the mines for the past 12 years and have spent over \$100,000, thoroughly testing and proving the value of the ore bodies. This \$100,000 (and a good deal more besides) was taken out in virgin gold direct from the AJAX mines.

6. BECAUSE up to the present time the development of these mines has represented over a decade of hardship and suffering on the part of an entire family of honest miners, who have been obliged to contend with inadequate machinery, exorbitant railroad and smelter charges and other drawbacks, and who are now only willing to part with a one-third interest

in their properties in order to do away with those conditions.

7. BECAUSE the capitalization of the AJAX GOLD MINING AND MILL-ING CO is only \$1,500,000—an exceedingly low figure in view of the magni-

tude and value of the properties. There are no promotion shares.

8. BECAUSE every dollar realized from the sale of the 500,000 shares of treasury stock now offered by us for subscription is to be used for the express and exclusive purpose of completing payments on the latest improved machinery, including a 40-stamp mill. Mr George H. Lightfoot, the eldest son of the president of the company, who is the superintendent and general manager of the mines, is now in New York City engaged in the negotiations for the immediate installation of this machinery at the mines,

contracts for which have already been given out. 9. BECAUSE just as soon as this machinery is erected the company will be independent of railroads and smelter and will be able to increase its output so as to treat at least 150 tons of ore each and every day in the year, netting \$7,000 daily profit and enabling the company to pay the stock-
